More than 30 communities and organizations on Long Island are launching a public campaign to encourage homeowners to properly maintain and have their septic tanks and cesspools pumped on a regular basis. They are all partners in the CESSPOOL Project (Coordinated Environmental Solutions for Septic Problems Occurring On Long Island). The Long Island Liquid Waste Association (LILWA) is one of the groups conducting the campaign supported by grant money from the Long Island Sound Futures Fund of the U.S. Fish and Wildlife Foundation, and the Local Waterfront Revitalization Program through the New York Department of State. The multimedia campaign includes a brochure, fact sheets, a file for homeowner recordkeeping, and a website www.getpumpedli.org. Coupons offering a \$50 savings are being accepted by 10 companies.
